

Talking with **powergres**

Interior Design Paola Figini, a well know and accredited Italian designer, is taking care of Powergres China showroom in Foshan planning a complete and innovative interior "product", listening to the effective needs of Powergres and personalizing the commissioner's ideas in a structured way.

Mrs. Figini has her own studio in Voghera (Italy), created in 2004 and since then she has worked on different projects, in Milan, Florence, Naples and Venice ranking into the youngest and most qualified Italian designers.

What inspires her projects it's the witting use of natural resources and energetic saving, the chosen materials are always the ones that use less energy in production and which guarantee the most healthy solution for the

奥古丁陶瓷紧贴市场的变化，走进我们佛山的中国陶瓷产业总部基地开设新旗舰店，以展示意大利制造的产品及其文化，这是圣奥古丁陶瓷在中国市场上的突破。

final customer, and also the chances of being reutilized. The construction's techniques are among the most innovative, always looking at the ecological targets.

Designer Paola Figini was in Foshan following the first part of the project cooperating with the chinese designer, Mr. Tang Guangwei structuring the design and all the ideas took shape. She will be back in Foshan soon following all the structural project and being sure that the Italian spirit and design will be well combined in the Chinese culture.

Italy. It will be developed into 3 areas dedicated to three different types of taste: country, classical and design oriented.
